JC

“ Dennis is a 1st cousin to me. We go way back and so many memories play out in my head of those times. He was quite but so full of love. He always had such a great sense of humor. I feel so blessed to have had him in my life. I will never forget when my mom passed away 3 years ago he, Beva and Dennie Ray came to my mom's memorial and I will never forget that. One of the many memories I think back of as a child (and laugh) is when all of us cousins on our mom's side (there were 6 of us) managed to get on our grandparents bicycle built for TWO and ride through their neighborhood. We crashed right in front of their house and I got a scar over my left eyebrow that reminds me of that time every morning when I put on my make up. Just over a year ago I remember visiting his mother, My Aunt Dorothy, before she passed and she expressed so deeply her love for her boys to me how much they did for her. I know Eddy and Dennis remained close and loving to each other as my brother and I have. I am so sorry to you all for this tremendous loss in your family. I hold you each up in prayer during this most difficult time. All my love to you and Dennis. He lives on through us and will never be forgotten.
