JR

“ I was shocked to hear that George is gone, he's way too young. I worked for him at Bentsen for four years. He was fiercely loyal to all of us who worked for him, and egalitarian to the point that he didn't hesitate to send the guy with the Ph.D. (me) to drive the tram or clean the toilets every now and then, just so everyone would feel respected and not confuse being subordinate with being inferior. He seemed happiest when he was able to give the staff new gadgets to use at work, like the remote-control spotlight to mount on top of the park van for spotting wildlife at night. Vaya con dios George....

“ George was my boss at Bentsen for two years and he taught me so much. He played a huge role in shaping who I am as a supervisor and leader today. I am so sad to hear of his passing, I wish he had been able to enjoy his retirement more. He earned it.

Hope you're cruising on your motorcycle wherever you are, George. Thank you for everything.

“ George Cortez was my Boss for 14 years he believed in me and always encourage me to advance. He would laugh when I would put hand cream at the office because he would say that I was hypnotizing him to ask for money. My name is Maria
