“*Mrs. Dodd, First i wish to express my condolences to the Wishusen family. It was with great sadness that I read of your passing. Second I wanted to share how much you impacted my life. You were an inspiration to a very lazy and confused senior in your Folklore class during the 1970/71 school year. You pulled me aside and we had a one sided chat about my future. It was the one conversation during my senior year which hit home to me. Your no nonsense approach to my education really hit home and caused me to not only wake up but to realize my future depended on no one but me but also forced me to grow up and accept that I was responsible for my future and couldn't blame anyone but myself if I failed in life. Thanks to your dedication to a very confused young man I went on to graduate with my class and to take a hard look at where i wanted to be in life. The results of my life are in not short way a direct reflection on your dedication as a teacher and as a mentor in my life. Anytime I felt boxed in or needed a boost in my direction in life I reflected back on my chat with you and ask myself what would Mrs Dodd say. Thank you for your actions back in 1971 and again my sincere regret in not having had the chance to thank you in person for helping me become the man I am today. God grant you the reset you deserve and I hope to see you in the future to thank you personally.*

“*Sending my condolences to the family. To all of us she was always Ms. Dodd. She touched many lives throughout the community and the picture of that smile was the one she always had. Many saw her as a strict teacher and lady but she had a big heart.*
